BUSINESS REQUIREMENTS DOCUMENT

Project Expenses Tracker

Thailand Fieldtrip Edition

thai.expenses.syaefulaz.my.id

Document ID	BRD-TXC-EXP-2025-001
Version	v1.5 — Simplified 5-Tab System
Date	May 2025
Domain	thai.expenses.syaefulaz.my.id
Classification	Internal — Confidential
Author	IT Head, Texcoms Worldwide
Status	Draft for Review & Approval

This document is confidential and intended solely for the use of Texcoms Worldwide. Unauthorized distribution or reproduction is prohibited.

1. Document Purpose

This Business Requirements Document (BRD) defines the functional requirements for the Thailand Expenses Tracker system — a lean, focused tool for Dina, Winda, and Syaeful to log real-time expenses, track inter-member loans, and maintain a clear view of who owes whom after the Thailand fieldtrip.

2. Company & User Profile

Field	Detail
Company	Texcoms Worldwide
IT Maturity	Google Workspace, N8N, MySQL, Linux VPS
Domain	thai.expenses.syaefulaz.my.id
Deploy Path	/opt/expenses-tracker/

Users:

User	Role	Responsibility
Syaeful	ADMIN / Owner	Full access; user management; system oversight. Sees all tabs including Admin.
Dina	MANAGER	Create/manage own expenses; view and manage loans (lend/borrow); no Admin tab.
Winda	MANAGER	Create/manage own expenses; view and manage loans (lend/borrow); no Admin tab.

3. Business Objectives

#	Objective	Measurable Outcome
BO-01	Log real-time expenses per person	Single source of truth — no more scattered spreadsheets
BO-02	Track who owes whom and how much	Live loan dashboard: net position per user pair
BO-03	Record loan repayments (partial or full)	Remaining balance updates instantly on repayment entry
BO-04	Full expense audit trail	History tab: every submitted/approved/rejected expense logged
BO-05	Centralized reporting	Dashboard KPIs: total spend, loan summary, per-user breakdown

4. Scope of Work

4.1 In Scope

- 5-tab SPA: Dashboard, List of Data, Loan Data, History, Admin
- New expense input: expense_date, amount, description, source (mandatory); category + attachment (optional)
- Auto loan creation when expense source belongs to another user
- Loan lifecycle: UNSETTLED → PARTIAL → FULLY_SETTLED
- Lender declares expected repayment; records actual payment (partial or full)
- Dashboard: net loan position per user pair
- History: all expense submissions with status
- User management (Admin tab, Syaeful only)

4.2 Out of Scope

- Project or cost center tracking — not needed for 3-person team
- Multi-currency support — THB only
- Native mobile app — web-based only
- Accounting / invoice generation
- Budget management per project

5. Functional Requirements

5.1 Expense Management

ID	Requirement	Priority
FR-01	User creates an expense with: expense_date, amount (THB), description, source (e.g. Winda Cash, ATM Syaeful, Dina Cash, Corporate). Category (optional) and attachment (optional). Status defaults to DRAFT.	Must Have
FR-02	User can edit and delete own DRAFT expenses only.	Must Have
FR-03	User submits a DRAFT expense → status becomes PENDING. Expense moves to History tab.	Must Have

5.2 Loan & Settlement

ID	Requirement	Priority
FR-04	When a user submits an expense where source belongs to a DIFFERENT user (e.g. Syaeful spends from Winda's cash), the system auto-creates a loan: lender = source owner, borrower = recorder, amount = expense amount, status = UNSETTLED.	Must Have
FR-05	Lender declares expected repayment amount from Loan Data tab (e.g. Syaeful says "I will repay 1,500 THB"). Remaining balance = declared – actual_repaid.	Must Have
FR-06	Lender records actual repayment (partial or full) from Loan Data tab. actual_repaid increases; remaining_balance decreases. loan_repayment audit record created. Status: UNSETTLED → PARTIAL → FULLY_SETTLED → OVERPAID.	Must Have
FR-07	Dashboard shows for each user: total amount owed TO them, total amount they owe TO others, net position (owed to – they owe).	Must Have

5.3 History

ID	Requirement	Priority
FR-08	History tab shows all expenses submitted by the logged-in user, with status: DRAFT / PENDING / APPROVED / REJECTED.	Must Have

5.4 Admin

ID	Requirement	Priority
FR-09	Admin tab (Syaeful only) allows: view all users, create new user, update user role (ADMIN/MANAGER) and active status.	Must Have
FR-10	Dina and Winda (MANAGER role) do NOT see the Admin tab in navigation.	Must Have

6. Data Input Fields

New Expense (List of Data → New Input button):

Field	Mandatory	Type	Notes
expense_date	Yes	Date	Date expense occurred — NOT submission date
amount	Yes	Number	THB; 2 decimal places
description	Yes	Text	Description of the expense
source	Yes	Dropdown	Winda Cash, ATM Winda, Syaeful Cash, Dina Cash, ATM Dina, Corporate
category	No	Dropdown	Transport, Food, Accommodation, Other
attachment	No	File	Receipt image or PDF; max 5MB

7. Non-Functional Requirements

ID	Requirement
NFR-01	Performance: Dashboard loads within 3 seconds under normal conditions.
NFR-02	Availability: 99% uptime during business hours.
NFR-03	Security: HTTPS enforced; passwords bcrypt; JWT auth.
NFR-04	Data Integrity: All amounts stored with 2 decimal precision (THB).
NFR-05	Audit Trail: All loan repayments logged in loan_repayments table.
NFR-06	Scalability: Designed for 3 users; architecture supports up to 50.

8. Assumptions & Dependencies

ID	Assumption
A-01	All amounts are in THB (Thai Baht).
A-02	Three users: Dina, Winda, Syaeful. No additional users in v1.0.
A-03	System hosted at thai.expenses.syaefulaz.my.id, deployed to /opt/expenses-tracker/.
A-04	No corporate imprest fund — each user funds expenses from personal cash/ATM.
A-05	SSL certificate via Let's Encrypt with auto-renewal.

9. Acceptance Criteria

The system will be accepted when all of the following criteria are met:

#	Acceptance Criterion
AC-01	Syaeful submits expense with source=Winda Cash → Winda's Loan Data tab shows "Syaeful owes Winda X THB".
AC-02	Winda declares repayment of 1,500 THB on Loan Data tab → remaining balance shows 1,500 THB (0 repaid).
AC-03	Winda records partial repayment of 500 THB → remaining balance updates to 1,000 THB; loan_repayment record created.
AC-04	Dashboard shows correct net position: e.g. "Winda is owed 1,000 THB by Syaeful".
AC-05	Login as Dina → navigation shows: Dashboard, List of Data, Loan Data, History (NO Admin).
AC-06	Login as Syaeful → navigation shows all 5 tabs including Admin.
AC-07	Submit expense → History tab shows entry with correct status PENDING.
AC-08	HTTPS active at https://thai.expenses.syaefulaz.my.id/ with valid SSL certificate.
